MARION GENERAL HOSPITAL CONDUCTING COMMUNITY NEEDS ASSESSMENT

As a trusted healthcare partner and provider, Marion General Hospital exists to transform the health and wellness of our Healthcare Community. It is our responsibility to complete a comprehensive community health needs assessment every three years. Currently, Marion General Hospital is facilitating the development of the Grant County Community Health Profile (CHP) to prepare Grant County organizations to better serve the population.

In the upcoming months, MGH will be embarking on the journey to obtain as many health surveys from community members as possible.

For more information, contact kelley.hochstetler@mgh.net or 765-660-7204. Or visit our website at www.mgh.net and click on "News" for the survey link.
